May 2025-Present

PROJECTS

Python CLI Shopping Cart   08/2025 – 08/2025
Built a terminal-based shopping cart application in Python, with category-specific GST calculations and multiple payment options (Credit Card w/ OTP via WhatsApp, UPI QR, Cash on Delivery).

E - Commerce Website   08/2025 – 09/2025
Built a web application using Django, HTML, and Tailwind CSS that supports user registration, content management, and secure interactions. Focused on responsive design and fast load times to ensure smooth user experience across devices. Handled deployment and ongoing maintenance to keep the site reliable.
